DO YOU WANT TO IMPROVE OUR MOBILITY? WE ARE SEARCHING:

AUDI BUMPER DESIGN ENGINEER (M/F/D)

Location: China, Shanghai • **Functional Area:** EDAG Engineering and Design (Shanghai) Co., Ltd. • **Referencecode:** 19529102_HP

There is a bit of EDAG in almost every car. We are experts in complete vehicle development and the optimisation of production facilities for the automotive industry. With some 8.000 employees at 60 locations in 17 countries, we offer our customers a full range of automotive-related engineering services, and help them to transform technology into emotion.

Tasks:

- Design of 3D models with CATIA V5 from the first concept to the final product according to functional, cost, quality, manufacturing and process requirements
- Responsible for Audi bumper module construction development, proposals design and confirmation
- Audi Bumper 3D data & 2D drawing checking and review
- Audi Bumper 3D & 2D design specifications guiding and training e.g. guideline, checklist...etc.
- Preparation of documentation, such as SSTS, material lists, 2D drawings, installation manuals, FMEA, VP, etc. according to customer or EDAG's standard

Requirements:

- Bachelor - Mechanical Engineering, Master Degree in Automotive Engineering, Technician or relevant education, training, and/or work experience
- Minimum 4~5 years experience in Exterior trim development/manufacture
- At least 2 complete Audi bumper projects design experience
- Skilled to use CATIA V5
- Rich experience in concepts and design of Exterior Trim for Audi, e.g. bumper, grille...etc.

Why we are special:

- The opportunity to rediscover mobility through innovative projects in the automotive industry!
- We want you to join us in thinking outside the box and constantly questioning the technological status quo – tailored training will help you to meet this challenge.
- Short communication channels, mutual cooperation and a corporate culture of a medium-sized company.

Passion for detail, state-of-the-art technology, and a constant focus on improvement: as an independent developer of the world's greatest automobile brands, our central interest is moving people - professionally, with new ideas, excellence in implementation, and on individual career paths.
